ARCHITECTURE

Materially balanced. Distinctly urban.

A disciplined concrete frame gives the building its strong architectural rhythm, while warm panels, dark aluminium, glass balustrades and integrated greenery soften the composition. The result is contemporary without feeling cold - a façade designed to age with quiet confidence.

GROUND FLOOR

The ground floor is organised around a clear central core, covered parking, private storage rooms and a defined pedestrian arrival. Landscape at the street edge softens the transition from city to residence.

A calm interior palette.

Warm oak, tactile upholstery, soft neutral finishes and layered lighting create interiors that feel refined yet easy to live in.

LIVING SPACES

Open, warm and deliberately simple.
